OBJECTIVE

To work in the Journalism field, where I can use to good advantage both my B.A. degree in English Language and Literature and my experience as a copy editor.

EDUCATION

August 2002 **Tennessee State University** Nashville, Tenn.
Dual-degree program in Mathematics & English Language and Literature:
• B.S. in Mathematics, expected May 2007
• B.A. in English Language and Literature, expected May 2007
Dean's List, University Honors Program

PROFESSIONAL EXPERIENCE

May 2006 New York Times Student Journalism Institute New Orleans, La.
Copy Editor and Reporter
In an intensive two-week program facilitated by employees of The Times Company, copy-edited, reported, paginated and proofed pages for the institute-produced newspaper and Web site (see <http://www.nytimes-institute.com>).

Aug. 2005-2007 The Meter, Student Newspaper Nashville, Tenn.
Copy Editor and Staff Reporter
Reported for the campus news desk on a beat that included the school's administration, program changes/endowments and distinguished speakers. Sole editor of all copy before it went to layout. Finalized corrections of pages before they were sent to printer.

June-July 2005 NASA's Goddard Space Flight Center Greenbelt, Md.
Student Intern in Goddard's Earth Science & Technology Center
Worked with a team of student interns in developing presentations on "Moon Culture around the World" and "The History of Lunar Exploration." Selected among other interns to stay on two more weeks to facilitate and teach at a professional development symposium for educators.

July 2005 University of Maryland-Baltimore County Catonsville, Md.
Co-Facilitator for Professional Development Symposium for Educators
Trained educators (grades 7-12) in Discussion/Training in the Earth Science competencies and in using learning technologies/Web applications for use in the classroom. Presented course on history of NASA's lunar explorations. Created database of resources, information and technologies for the educators on a Web site (see <http://vtie.umbc.edu>).

Summer 2004 NASA's S.T.A.R.S. Summer Research Institute Nashville, Tenn.
Student Research Intern
Responsible for conducting research in mathematics and English backgrounds. Developed computer technology that may be implemented for determining user readability statistics. Assisted with design, theory, and creation of a Vocal Eliminator Device. Organized and delivered culminating presentation of detailed research methodology.

LEADERSHIP AND CIVIC EXPERIENCE
